## **INTERESTS & HOBBIES**

I currently devote most of my free time to my family and enjoy exploring the world with my one-year old son. I also enjoy photography, backpacking, and cycling. In the recent past, I was skydiving on a regular basis and plan to rejoin the sport in the future. I helped start an arts/media organization called Re:Sound Creative Media and became involved as a leader. I love the French culture and have taken some classes on my own time to learn the language.
